Spalding DeDecker Associates, Inc. Hires Municipal Engineering Department Manager

Rochester Hills, MI (March 28, 2011) - Spalding DeDecker Associates, Inc. (SDA), a regional civil engineering, landscape architectural, and surveying firm, hires a Municipal Engineering Department Manager.

Philip Westmoreland, PE will serve as the Municipal Engineering Department Manager responsible for all municipal infrastructure improvement projects including water distribution systems, sanitary sewage collection systems, stormwater management, road design, pedestrian pathway design, master planning, studies, and site plan reviews. He will also be responsible for project management and business development. Mr. Westmoreland earned a Bachelor of Science in Civil Engineering from Michigan Technological University, and holds a professional engineering license in Michigan. He is an active member of the American Council of Engineering Companies/Michigan (ACEC/MI). Mr. Westmoreland has more than 16 years of experience in the industry, has served as the primary client contact for many municipalities in southeast Michigan, and has worked extensively with cities, villages, and townships, as well as road agencies and drain commissioners. Mr. Westmoreland has had the opportunity to speak at several conferences: Water Environment Federation, Private Property Programs; Water Environment Federation, Infrastructure Stewardship; ACEC National Conference; and ACEC Michigan Winter Conference. Mr. Westmoreland previously worked for OHM as Manager of Engineering Services.

"We are delighted to welcome Phil to SDA. He brings extensive experience to an already strong Municipal Team. Phil brings energy and dedication and thrives at working closely with clients to understand what keeps them up at night. He is dedicated to ensuring he and the SDA Municipal Team are there to guide clients who want to maximize their projects, given the limited budgets available in today's economy," said Steve Benedettini, President of SDA.

Established in 1954, Spalding DeDecker Associates, Inc. is an employee-owned and ISO certified consulting engineering and surveying firm specializing in infrastructure, land development, and surveying. With regional offices in Detroit, Plymouth, and Rochester Hills, and field offices in Trenton and Monroe, Michigan, SDA offers a diverse set of skills to clients who seek solutions to construct and maintain their infrastructure. The firm offers municipal engineering, construction engineering, forensic engineering, transportation engineering, land development, landscape architectural, pavement management, and land surveying services.
